CURRICULUM VITAE

Personal particulars

Name in English:	Dr. Nikolay Novitskiy
Position held in Company/Organization:	Research Associate
Company/Organization	The Chinese University of Hong Kong
Department	Dept. of Linguistics and Modern Languages
Tel No (mobile)	9586 0532
E-mail address:	nnovitskiy@cuhk.edu.hk, nikolai.novitski@gmail.com

Sex: male

Marital status: married

Date and place of birth: 22.05.1976, Alma-Ata, Kazakhstan

Country of birth: USSR

Citizenship: Russian Federation

Residence rights: Permanent resident of SAR Hong Kong, China

LinkedIn: https://www.linkedin.com/in/nikolay-novitskiy-8a22275/

ORCID: https://orcid.org/0000-0002-4039-5209

Google Scholar: https://scholar.google.com/citations?user=-BtGX7kAAAAJ&hl=en

Professional Summary

Neuroscientist and clinical education strategist with over 25 years of international experience in neurobiology, cognitive neuroscience, and translational research. Specialized in auditory processing and frequency-following response (FFR). Proven ability to lead medical education programs, mentor clinicians and researchers, and collaborate across cultures and disciplines. Co-inventor of a patented pediatric neurodevelopment forecasting tool. Experienced in APAC and European academic, clinical, and industry settings, with a passion for translating neuroscience into impactful clinical education.

Academic Qualifications

- **Ph.D. in Psychology**, University of Helsinki, Finland — *Nov 2006*
- M.Sc. in Neurobiology, Saint-Petersburg State University, Russia — *Dec 1998*
- B.Sc. in Biology, Saint-Petersburg State University, Russia — *Jun 1996*

Languages and coding

English (fluent), Russian (native), Dutch (basic)

Attended classes: Romanian, German, Finnish, Mandarin Chinese, Cantonese Chinese

Programming skills: MATLAB

Professional Experience

08.2017-present: **Research Associate**
The Chinese University of Hong Kong, Dept. of Linguistics and Modern Languages
EEG/FFR recording and analysis, machine-learning predictive model construction. Lead investigator in neurolinguistics, focusing on FFR and language development. Co-inventor of PRC Patent No. ZL202010692253.5, awarded Gold Medal at Geneva International Exhibition of Inventions. Collaborated on international interdisciplinary projects in neurolinguistics and pediatric diagnostics.

05.2015-07.2017: **Senior Research Fellow**
National Research University Higher School of Economics, Moscow, Russia.
EEG/N400 recording and analysis. Conducted EEG/MRI research on neuroplasticity and second language acquisition. Designed and taught Behavioral Neuroscience course (152 academic hours). Lectured at Neurolinguistics Summer School (2017, 2018)

11.2014-03.2015 : **Leading Specialist in neuroimaging.**
Sante Medical Systems, Moscow, Russia.
fMRI accessories and software support in the Russian market (NordicNeuroLab). Provided clinical support and training in functional MRI applications. Delivered invited lectures on neuroimaging for radiologists at Sklifosovsky Institute.

01.2012-11.2014: **Senior Researcher.**
Neurobotics Trading Ltd., Zelenograd, Moscow, Russia.
EEG and other biomedical devices distribution and support in the Russian market (Brain Products, ADIinstruments, NordicNeuroLab, Noldus). Supported development and deployment of neurodiagnostic tools.

10.2010-12.2011:	**Sales & Support Product Specialist.** Brain Products GmbH, Gilching, Germany *Proprietary EEG analysis software support (BrainVision Analyzer). Delivered technical support and training for EEG/fMRI systems. Facilitated workshops for clinicians and researchers across Europe.*
01.2007-09.2010:	**Postdoctoral Fellow** Katholieke Universiteit Leuven, Belgium (10.2008-09.2010 funded by FWO, Belgium). *Simultaneous EEG-fMRI recording and analysis FWO-funded research on visual attention using EEG/fMRI. Supervised MA thesis in cognitive neuroscience*
04.2002-06.2002, 09.2003:	**Visiting Researcher** Max-PIanck Institute for Human Cognitive and Brain Sciences, Leipzig, Germany. *MEG/MMF recording and analysis*
06.1999-03.2002, 07.2002-08.2003,10.2003-12.2006:	**Researcher, PhD student** University of Helsinki, Finland. (06.199911.2000 funded by CIMO, Finland) *EEG/MMN recording and analysis. Conducted research in cognitive neuroscience and auditory object perception. CIMO-funded early-stage EEG research.*
01.1999-05.1999:	**Post-graduate student** Dept. of Higher Nervous Activity and Psychophysiology, St. Petersburg State University, St. Petersburg, Russia. *EEG/MMN recording and analysis*
09.1997-12.1998:	**Research Assistant.** I.M. Sechenov Institute of Evolutionary Physiology and Biochemistry, St. Petersburg, Russia. *Intracellular electrophysiology recording. Supported neurobiology experiments and data analysis*.

Intellectual Property

1. Wong, P. C. M., **Novitskiy, N.**, Feng, G., Leung, T. F., Lam, H. S., & Maggu, A. R. (2026). Method and Tool for Predicting Language Development and Communication Capabilities of Infants and Toddlers (Granted Vietnam Patent No.: 58499)
2. Wong, P.C.M., **Novitskiy, N.**, Feng, G., Leung, T.F., Lam, H.S., Maggu, A.R. (2023). Method and Tool for Predicting Language Development and Communication Capabilities of Infants and Toddlers (Granted UK patent No.: GB2612256)
3. Wong, P.C.M., **Novitskiy, N.**, Feng, G., Leung, T.F., Lam, H.S., Maggu, A.R. (2023). 预测婴幼儿的发育语言和交流能力的方法和工具 (Granted Macau Patent No.: J/007105).

4. Wong, P.C.M., **Novitskiy, N.**, Feng, G., Leung, T.F., Lam, H.S., Maggu, A.R. (2023). 预测婴幼儿的发育语言和交流能力的方法和工具 (Granted PRC Patent No. ZL202010692253.5). Gold Medal, Geneva International Exhibition of Inventions.

Grants

1. CUHK IdeaBooster Fund: Developing a Neural Diagnostic Classifier for School-Age Children with Autism Spectrum Disorder: A Preliminary Study Using Existing HMRF Data (Role: CoPI). HK$ 299,880. June 2023 – December 2024
2. Russian Foundation for Basic Research, project 16-06-00468 (Russia): The effect extensive second language learning on neural plasticity: EEG and MRI study (Role: PI). RUB 2,075,000. January 2016 – December 2018
3. Post-doctoral Fellowship FWO, grant 1238209N (Belgium): Cortical mechanisms for attention shifts to visual objects against a busy background: an integrated EEG-fMRI study (Role: PI). October 2008 – September 2011.
4. Visiting Fellowship FWO (Junior GP.038.07N), Belgium (2007-2008)
5. Grant for finishing doctoral dissertation, Univ. of Helsinki, Finland (2006)
6. Academy of Finland, project 78265, Finland (2002-2003)
7. Centre for Advanced Study (ZHS), Univ. of Leipzig, Germany (2002)
8. Centre for international mobility (CIMO), Finland (1999-2000)

Teaching & Mentorship

1. Lecturer - University Immersion Program – Sichuan University, Chengdu, China, 15 academic hours (2025)
2. Lecturer & Examiner – Behavioral Neuroscience, HSE, Moscow, Russia, 152 academic hours (2016)
3. Invited Lecturer – Functional MRI for Radiologists, Sklifosovsky Institute, Moscow, Russia, (2015, 2016, 2017)
4. Summer School Faculty – Neurolinguistics, HSE, Moscow, Russia (2017, 2018)
5. Public examiner - Candidate of science (Ph.D.) defense, Institute of Higher Nervous Activity and Neurophysiology RAS, Moscow, Russia (2016)
6. Lecturer and demonstrator- EEG-fMRI Workshop by Brain Products, Trento, Italy (2011)

7. Scientific Advisor – The effects of attention on perceptual organization: An ERP study of cued fragmented outline detection, MA Psychology, KU Leuven, Belgum (2009–2011)

Peer reviewer:

Journal of Speech, Language, and Hearing Research (2026), Scientific Reports (2024, 2026), Communications psychology (2026), Cerebral Cortex (2024), Bilingualism: Language and Cognition (2023), Language, Cognition and Neuroscience (2022); Frontiers in Psychology(Review Editor in Cognition), Magnetic Resonance Materials in Physics, Biology and Medicine (MAGMA), NeuroImage, BMC Neuroscience, Human Brain Mapping

Invited talks and oral presentations

July 2016 Public talk "Language and Speech: the modern solutions for the ancient problem" at Exhibition of Achievements of National Economy (VDNKh), Moscow, Russia

Nov 2009 invited talk, Centre for Cognitive Neuroscience, Turku, Finland

March 2009 oral presentation at Neuromath workshop, Leuven, Belgium

Jun 2008 invited talk, Dept. of Psychology, Univ. of Magdeburg, Germany (Seminar series SFB/TRR 31)

Dec 2004 invited talk, MPI of Human Cognitive and Brain Science, Leipzig, Germany

Oct 2004 oral presentation at Workshop on neuroscience and information technology, Tampere, Finland

Professional memberships and community services:

- Steering Committee member of the Greater Bay Platform for Experimental Research in Linguistics (GB PERL)(2025-present)
- Program committee member of the 5th International scientific conference "The Psychology of individuality", Moscow, Russia, December, 9-11th, 2015
- Society for Neurobiology of Language member (2016, 2021, 2023-2026)
- Association for Psychological Science (APS), member 2010-
- Local committee member of NEUROMATH workshop, Leuven, Belgium, March 12-13. 2009

Publications

PhD thesis

Novitski, N. Pitch discrimination in optimal and suboptimal acoustic environments: electroencephalographic, magnetoencephalographic, and behavioral evidence. Doctoral dissertation. University of Helsinki, Helsinki November, 2006. (http://hdl.handle.net/10138/19738)
